

# 2024-2025 PET328

## Assignment 1

Due Date: 10:00am Wednesday, April 2, 2025

1. Set up the following tools:

 Install Python 3: <https://www.python.org/downloads/>

 Install Anaconda: <https://www.geeksforgeeks.org/how-to-install-anaconda-on-windows/>

 Set-up a GitHub user account: <https://github.com/signup>. Ensure to have your official names or matriculation number in your GitHub username or in your account description.

 Install GitHub Desktop app: <https://desktop.github.com/download/>

2. Fork and clone the PET328\_Class\_2025 repository into your GitHub account.
3. Log in to PET328 Course on Moodle and submit the URL of the forked repository. The URL must be of this format: [https://github.com/yourusername/PET328\\_Class\\_2024](https://github.com/yourusername/PET328_Class_2024); with 'yourusername' being your GitHub username.
